Solange Nobal
Raymond Akichy

President's word at the beginning of the meeting

Dear members

The gathering and promotion of fraternity within a heterogeneous group is not without difficulties. However, we the Attiés, from different families of the Great AKAN people of Ivory Coast who live in the United Kingdom, have made it in foreign land through the Association of the Attiés in the United Kingdom.

Like any other association, our association knows some ups and downs. But we still continue to prosper because we understand the virtues of the existence of an association and we value its actions in the community. Since its creation, we have constantly defended solidarity, fraternity, respect and listening to the people who come to us for their integration into the extended family so that we can work together to overcome our difficulties in a foreign land.

The association of Attiés in the United Kingdom is like a second family for all its members. You know dear members! the strength of an association is also based on the total commitment of members to stand by the values of this association. Our project is based on the participation of all.

I would like to thank my bureau members for supporting me in this heavy responsibility and all the members who are involved in this movement, who also express their confidence in the association's presidency and its office.

I invite you to cultivate fraternity, love, tolerance and engage in our various activities. I have confidence in you and I am sure that together we will be strong and we will make big things.

1) FINANCIAL REPORT

The total amount we made for the year 2019 through the members' contributions is £2685
We have £670 of miss payments and invite the concerned members to clear their debts

We spent through the year £1432.34 and saved £1252.66
